

DESCRIPTION	TERMS: 50% Wired Deposit & Full Payment Prior to Shipping	PRICE
<p><b>GRIZZLY CUB 300T STANDAD MECHANICAL 6 - 16 FOOT TELESCOPING MACHINE INCLUDES:</b>  <b>ALL Sales taxes and duties are the customers responsibility except in Hawaii.</b>                      1 each - Main Frame Single Bar and Patent Pending Reducer, with one set of telescoping arms to 15 .5 foot                      2 each - Telescoping arms marked for various roll widths.                      2 each - Bearings for Telescoping, at ends of main frame tubing with 2 milled slots, 4 laser cut tabs welded for 2 bolts &amp; bearings with 2 opposite end HDPE spacers.                      4 each - Tractor Mounts Patented Sliding Universal 25 inch to 50 inch with 12" Pins and reducer.                      1 each - Center lifting &amp; safety chain pad eye.                      1 each - Mechanical Crab Claw Swing Arm, Patented                      1 each - Crab Claw Solid Non Swing Arm, Patented                      2 each - Rotating Spindle Roll Holders with cast iron lubricatable bearings.Patented                      2 each - Cones with 8 Solid Steel blades with keywayed shaft and key Patented with Patent Pending two step blades for 2.25 inch to 5.25 inch cardboard cores.                      1 each - Chevron Angled or Straight Brush System. Patented, Telescoping to 13 feet with lock down ends for optional brush extensions.                      1 each - Center Articulating Leveling Center Brush Patent Pending Mount with 3 angled positions for Fabrics &amp; some Hybrid Mats with a straight position for Grids and some Hybrid Mats. Patent pending high melt brushes optional.                      2 each - Brush Jacks, Outer Heavy Duty Height Adjustment with attachment ends.                      1 each - Multi-Bar Tension System, Patented, 3 each Patented Z bars, 6 each Patented Sliders, 6 Regular 2" Barrel Nuts, 3 front Patented Sliders with Radius for pinning in place tension bar, 3 Pins Red Painted Handle). (PVC Excluded)                      6 each—Pipe Clamps. PVC Pipe is optional.</p>	<p><b>\$13,995.00</b></p>	

**The JULY, 2018 California CARR WILDFIRE** in Redding destroyed my 40 year old shop, tooling, equipment, office & all inventory down to the last nut & bolt. It also burnt many of my Associates Homes. It took 10 months to restart and make all new fixtures and tooling. Some equipment we could not replace and have switched to outsourcing precision laser cut tubing and flat parts and precession machining for Rotating Spindle Roll Holder (RSRH) Discs and Shafts and other parts. This has improved our already exceptional quality. The Virus Made in China shut us down for 3 months and has caused an increase in steel by 35% the end of 2020 and it is continuing its increase n 2021. The New Current CUB 300T Price is only 55% higher then the 2005 price after 16 years.

**The Grizzly Cub 300T started out in 1988 to be a lower cost, alternative to my original Grizzly 600T that I personally used.** A Camaro© versus a Corvette©. The Cub 300T was a basic paving fabric telescoping machine that included many of my patents. It was designed to install Paving Fabric Rolls 6 to 15.5 foot or with the optional patented clamp on short roll middle arm from 1 to 15.5 feet with standard brush capability of 13 feet and with the optional brush extensions brushing up to 15.5 feet.

**The Cub 300T installs equally and performs as well as a Grizzly 600T with a little less versatility.** As new Geosynthetics like Grids, Grid Fabric Composites and Hybrid Mats came on the market the Cub 300T began to require many of the Grizzly 600T advanced standard features as options to install all geosynthetics correctly and became more expensive. **There is a \$1535 difference between a fully equipped Cub 300T and a Grizzly 600T**, but the Cub is a little less versatile in width and for short rolls. We manufacture Grizzlies 3 at a time and when two sell we make 3 more so we try to have 1 to 4 Grizzly's available. We manufacturer Cub 300Ts to custom order. When ordered, we try to make 2 with 1 for inventory. Cub 300T's are not always in inventory. Grizzlies are almost always in inventory. The Grizzly 600T has 130 pounds more steel and parts. It takes 12 hours longer to manufacture then a fully equipped Cub 300T.

**The Cub 300T includes** Tractor Mounts, Lifting Eye, a Patented Single Bar Telescoping Main Frame with two telescoping arms marked for various widths, two bearings and HDPE Spacer for telescoping. One mechanical patented crabclaw swing arm. One solid crabclaw non swingarm (optional second swing arm). Patented multi-bar tension system with 3 patented Z-Bars, 6 patented sliders, 3 front patented sliders with patent pending radius. PVC bars are optional. 2 Patented (RSRH) Rotating Spindle Roll Holders with the new patent pending two step 8 blade cone for 2.25 to 5.25 inch cardboard cores. Patented 3 position Chevron Angled and a forth position Straight brushing system to 13 feet. A two brush extension holder, Two brush jacks. Brushes are optional.

**Many options exist that can upgrade its capabilities depending on installation needs.** A patented second mechanical or hydraulic swing arm, a patented middle short roll clamp on middle arm, two brush extensions for 15.5 foot, Telescoping PVC Tension Bars, Patented High Degree Melt Brushes. Pin in clamp on bucket mounts. A Combination Universal Tractor and Clamp On Bucket Mount. T-Handle Nuts. Many of these options can be purchased later or with the Cub. The Roller System for low elongation Geosynthetics, Grid Composites, Grids and Hybrid Mats is also a Grizzly 600T Option.

**Many recent new improvements include.** An optional Patent Pending Combination Universal Tractor Mount & Welded on Clamp on Bucket Mount all in One Mount, RSRH heavier duty cast iron lubricatable bearings, RSRH machined and surfaced internal disc, Patent Pending RSRH Cone and Shaft with 8 longer 2-step blades for different size cardboard cores from 2.25 to 5.25 inches. Patent Pending Center 4 Position Brush Mount with 3 Chevron Angles & Straight Brushing, heavier duty telescoping brush bars, patented multi-bar tension and patent pending roller system front patented sliders with patent pending multi position radius for pinning the sliders and bars in place at many angles and straight.

DESCRIPTION Optional Equipment & Parts	Parts Have a Handling Charge Per Shipment of \$20 to \$50 Depending on Size & Packing	PRICE
<b>PATENT PENDING COMBINATION UNIVERSAL TRACTOR &amp; CLAMP ON CLAMP ON BUCKET MOUNT</b>		<b>300.00</b>
<b>PATENTED PIN IN CLAMP ON BUCKET MOUNTS Set of 2 Required</b>		<b>550.00</b>
<b>PATENTED SECOND MECHANICAL CRABLAWSWING ARM REPLACES SOLID ARM (CREDITED)</b>		<b>375.00</b>
<b>PATENTED HYDRAULIC SECOND CRABLAWSWING ARM REPLACES SOLID ARM (CREDITED) WITH CYLINDER (\$200)</b> Includes cylinder only. Other hydraulic parts, hoses, valves, couplers, pumps and assembly are purchasers responsibility.		<b>575.00</b>
<b>PATENTED CLAMP ON SHORT ROLL MIDDLE ARM:</b> Rolls less than 6 feet centered or off centered rolls 1 to 8 feet.		<b>395.00</b>
<b>BRUSH EXTENSIONS:</b> 2 each - 16 inch Brush Extensions without ends for fabric to 15.5 foot 2 Required. Excludes 16 inch Brush.		<b>400.00</b>
<b>PATENTED PENDING OIL TRUCK MOUNTING SYSTEM:</b> The Complete system with Patent Pending Rectangular Frame, pivots, additional parts, truck frame attachment parts, 2 hydraulic lifting cylinders Excludes truck hydraulic parts and valves. Excludes mounting to truck or modifications.		<b>6,995.00</b>
<b>PATENT PENDING BRUSHES: HIGH MELT 425 DEGREE 50% EXTRA FILL BRISTLES.</b>		
<b>1 INCH THICK HARDWOOD BLOCK, INSET THREADED FEMALE SLEEVE WITH BOLT &amp; NUT.</b>		
1 each - Patent Pending 16 inch Brush, 6 per case, <b>(6 Necessary \$201)</b>		<b>33.50</b>
1 each - Patent Pending 24 inch Brush, 4 per case, <b>(4 Necessary \$174)</b>		<b>43.50</b>
<b>PATENTED DUAL BAR TENSION SYSTEM AND ROLLER SYSTEM SLIDER T-HANDLE NUTS FOR SAFETY: REPLACES BARREL NUTS.</b>		<b>120.00</b>
<b>PATENTED DUAL BAR TENSION SYSTEM PVC PIPE (2 OPTIONS) INCLUDES LABOR TO CUT AND INSTALL PIPE</b>		
1 each - 13 foot wide telescoped PVC System. 7.5 foot non-telescoped, with two each 2 inch Center 7.5 foot long pieces and four each 2½ inch Outer telescoping 42 inch pipes and 6 hose clamps. Labor to cut pipe 8 times and install on tension system included.		<b>215.00</b>
4 each - 60 inch 2.5 inch PVC, Replaces 42 inch for up to 15.5 feet. 10 feet wide. Transportation Disassembly required replacing with 42".		<b>75.00</b>
1 each - Grizzly 15.5 foot PVC Tension System with 2 male extensions. 7.5 foot non-telescoped for legal highway transport no disassembly required. Includes 2 Center 7.5 foot 2 inch PVC Bars with Internal Female End Couplers, 4 outer 2.5 Inch 42 inch Telescoping Bars to 13 feet wide, 6 PVC Clamps, 4 Male threaded extensions for telescoping up to 15.5 Feet, 2 Extension Holder Spring Brackets for holding extensions.		<b>400.00</b>
<b>PATENT PENDING MULTI-BAR NON-TELESCOPING ROLLER SYSTEM FOR GRIDS, GRIDFABRIC COMPOSITES AND HYBRID MATS: CONVERSION FROM PATENTED MULTI-BAR TENSION SYSTEM</b>		<b>895.00</b>
1 each - Dual Bar PVC Roller System (non telescoping) with 6 patented sliders, 3 front sliders with Patent Pending Radius for pinning in front bars in place & 8 neoprene bearings. PVC PIPE EXCLUDED.		
1 each - Example of 1 foot of PVC roller pipe that needs to be made for the correct width to be installed.		<b>15.00</b>
1 each - Labor to cut, drill & set screw a set of 4 roller pipes 2.5 inch PVC over 2 inch PVC pipe. PVC Pipe additional.		<b>150.00</b>
<b>PVC FOR PATENTED MULTI-BAR TENSION AND PATENT PENDING MULTI-BAR ROLLER SYSTEMS</b>		
1 foot - 2 inch PVC pipe, cost to be determined by sizes ordered.		<b>1.35</b>
1 foot - 2.5 inch PVC pipe 2 inch PVC pipe, cost to be determined by sizes ordered.		<b>1.85</b>
<b>FULLY ENCLOSED SHIPPING CRATES (MACHINE IS FULLY ASSEMBLED) Lumber prices have gone crazy. I only quote when it is purchased.</b>		
1 each - Fully Enclosed shipping crate for Cub 300T. Comes fully assembled and ready to use immediately		<b>650-950</b>
1 each - Fully Enclosed shipping crate for Oil Truck Mount System. Comes fully assembled and ready to install on truck.		<b>650-950</b>
<b>REPLACEMENT PARTS - Please Call for Current Pricing since these change faster than Machine Prices</b>		<b>1500.00</b>
1 each - RSRH Complete Patented Rotating Spindle Roll Holder (RSRH) with 2 step 2.25 to 5.25 inch Cone and Shaft		<b>110.00</b>
1 each - RSRH Internal Brake Pad Replacement Kit - 2 Pads, 2 Pins, T-Handle Screw, Square Nut, Thrust Pin, 5 Washers		<b>155.00</b>
1 each - RSRH Complete Internal Brake Pad Assembly Caliper Arms, Springs and Pad replacement Kit		<b>395.00</b>
1 each - RSRH Laser Cut Machined, Turned and Surfaced Internal Brake Disc with Hub and Keyway.		<b>85.00</b>
1 each - RSRH Cast Iron Re-Lubricatable Bearing with Grease Fitting for 15/16 inch shaft		<b>375.00</b>
1 each - RSRH Solid Steel Cone with Machined Keywayed Shaft & Key, 8 each 2 Step Laser Cut Cone Blades for cardboard cores from 2.25 inch to 5.25 inch ID, .		<b>255.00</b>
1 each - Brush Bar 40 inches with 1.5 inch milled tube slotted female receiver		<b>195.00</b>
1 each - Brush Bar 40 inches with 1.25 inch male tube insert for sliding in milled slut receiver		<b>95.00</b>
1 each - Brush Bar Replacement 40 inch 1.5 inch milled tube slotted female receiver		<b>35.00</b>
1 each - Brush Bar Replacement 40 inch 1.25 inch male tube insert for sliding in milled slut receiver		<b>375.00</b>
1 each - Brush Bar Center Mount with Extension Post with 3 holes and 2 tabs for Slider, Red Coated D Handle Ring Pin		<b>155.00</b>
1 each - Brush Bar Center Mount Slider with 2 Tabs and Pin Hole and Red Coated D Handle Ring Pin		<b>95.00</b>
1 each - Brush Bar Center Mount Articulating Rocker Arm, 2 Brush Bar Attachments and Red Coated D Handle Ring Pin		<b>75.00</b>
1 each - Z Bar Downward Extension Post with 3 holes for Attaching Brush Bar Center Mount for much older machines		<b>145.00</b>
1 each - Brush Bar Outer Top Wind A Frame Adjustment 1000 LB Jack with extension and rectangular attachment end		<b>200.00</b>
1 each - Brush Extension 16 inch without lockdown ends for fabric to 15.5 foot width		<b>155.00</b>
1 each - Tension Bar Replacement System Patented Double Slider with 1/4 Round Front with hose clamp.		<b>195.00</b>
1 each - Tension Bar Replacement System Patented Slider with Patent Pending Radius with hose clamp.		<b>65.00</b>
1 each - Roller System Patented Pending Replacement Center Patented Slider Excludes Neoprene Roller Bearing (ENRB)		<b>105.00</b>
1 each - Roller System Patented Pending Replacement Center Patented Slider with Patent Pending Radius (ENRB).		<b>145.00</b>
1 each - Roller System Patented Pending Replacement Offset Outer Patented Slider (ENRB).		<b>185.00</b>
1 each - Roller System Patented Pending Replacement Offset Outer Patented Slider with Patent Pending Radius (ENRB).		<b>55.00</b>
1 each - Roller System Patented Pending Replacement Neoprene Roller Bearing.		<b>40.00</b>
1 each - Slider Radius Patented Pending to weld onto and upgrade existing Patented Tension or Roller System Sliders.		<b>12.00</b>
1 each - Red Painted D Handle Ring Pin.		<b>4000.00</b>
1 each - PVC Tension Bar Replacement System 7.5 foot to 13 feet with internal female coupler ends and male threaded extensions to 15.5 feet and included 6 each hose clamps.		<b>7.50</b>
1 each - 2 inch Adapter Fitting for 2 inch pipe ends, Female Threaded or Male Threaded Fitting.		<b>20.00</b>
1 each - T - Handle Nut for Tension Bar and Roller System Sliders. Protects workers from injury and speeds adjustments.		<b>275.00</b>
1 each - Pin in Bucket Mounts for Previous Machines with Tractor Mounts. <b>(2 REQUIRED \$500 SET)</b>		<b>155.00</b>
1 each - Double C Bucket Mount Welded together to weld onto Previous Machines Tractor Mounts. <b>2 REQUIRED</b>		<b>800.00</b>
1 each - Combination Tractor and Bucket Mount Replacement Set on Sliders for previous models with Bucket Mounts
