GRIZZLY CUB 300T Paving Fabric Installation Machine

Price List Effective July 23, 2018

The California CARR FIRE in Redding burnt our shop and inventory to the ground on July 23, 2018

After 39 years I am having to restart as if brand new. Rented space, purchase new equipment, contracted out parts, new steel, new laser cut parts with many additional costs not present in our old paid for shop with old paid for equipment. This along with the recent 40% steel increases (We support the tariffs as necessary to bring about fair play), laser cutting up 30%, welding wire 45%, bolts, nuts all metal is up 40 plus % this year, This and increased parts and labor costs has necessitated an 11% price increase on the standard machine and some options. We hope that is sufficient to cover all the cost increases we face. We will adjust pricing as our costs our determined and with our new experience manufacturing the first few Cubs. Our production is limited at this time and we are shipping primed, not painted.

DESCRIPTION	TERMS: 50% Wired Deposit & Full Payment Prior to Shipping	PRICE
